

Future Food Thinking

Please come and join us at the Nottingham University
(Sutton Bonnington Campus – Postcode LE12 5RD)
on Tuesday 27 November 2018

Programme

1300	Lunch
1400	The Future of Food process and beyond (Seamus Higgins AFIChemE)
1430	Overview of the Nottingham University Food Capability (Tim Foster , Head of Food Science)
1500	Refreshments
1530	Agricultural Engineers for Sustainable Food Supply (Alastair Taylor IEng CEnv, MIAgrE) (Steve Parkin CEng CEnv FIAgrE)
1600	Tour of Sutton Bonington facilities
1700	Close

As well as providing delegates with an overview of the Food Capability at Nottingham University, this event will provide an overview from the Institution of Agricultural Engineers (IAgrE) on its new Food Engineering Specialist Interest Group and how to become a registered professional working in the food industry.

The Institution of Agricultural Engineers

IAgrE – Supporting your professional life

Enhancing:

- professional networks
- professional standing
- professional knowledge

This is your chance to stand out
from your peers and competitors

Registered Engineers & Environmentalists
are at the forefront of meeting the world's
most pressing challenges and ensuring
society's continued well-being and prosperity

Achievement of CEng, IEng,
EngTech or CEnv status recognises
your expertise and hard work
