

## Welcome to the **Institution of Agricultural Engineers (IAgrE)**

At IAgrE we know that your career development is important to you. With the help of the Douglas Bomford Trust (DBT) we offer free membership to students following a range of courses in agricultural and landbased engineering – vocational and academic, engineering, science and technology. We are passionate about our industry and want you to make the best of your IAgrE student membership. You will share many of the same benefits as all of our members. In addition, IAgrE offers unique benefits designed to help student members develop their career path to success.

 It is easy to join the IAgrE –  
simply complete the online application form  
Visit [iagre.org](http://iagre.org) for details
