18 April 2018

Ref: 188

### **Institution of Agricultural Engineers (AgrE) to exhibit at the popular Midlands Machinery Show**

The Midlands Machinery Show is taking place on Wednesday 22 and Thursday 23 November at Newark Showground in Nottinghamshire and the Institution of Agricultural Engineers will be in Crocker Hall 3 promoting the importance of professionalism.

The team will be advising people about career progression and attaining qualifications such as Chartered Environmentalist, Incorporated Engineer, Chartered Engineer and Engineering Technician.

“AgrE is a registered charity working for the public benefit through bringing together academics, practitioners and industry to share knowledge and promote professionalism. We want to talk to agricultural businesses at the show about the advantages of becoming a commercial partner of IAgrE. Benefits include keeping up to date with the latest industry developments, free advertising of jobs on the IAgrE jobsboard, access to branch and technical meetings and an online presence on our website, to name but a few,” said Alastair Taylor, CEO of IAgrE

George Taylor, Midlands Machinery Show manager said: “Technology is advancing at a fast rate within the agricultural industry, and it is really important farmers invest their time in attending events, such as the Midlands Machinery Show, to determine how this can be used to increase productivity and improve efficiency on their farms.”

The Midlands Machinery Show is an event to do business and a great opportunity for farmers and contractors to network with other farmers from across the region and beyond.

For regular show updates please follow the show on Twitter @Midsmachinery18 or join the conversation at #MMS2018

The show is open from 8.00am - 5.00pm on Wednesday and 8.00am - 4.00pm on Thursday
