

Irrigation Technical Support Engineer

The Scope:

Reesink Turfcare UK Limited is the exclusive distributor for the UK for the world leading range of Toro irrigation systems as well as the Otterbine Lake Management products.

We are now looking to recruit for the above position to add to our team.

The Irrigation Technical Support Engineer will be tasked with providing customer, installer and product support for our Commercial & Golf Automatic Irrigation systems, their system components and full installation projects. In addition, they will provide technical support for our range of Otterbine Lake Management products.

Applications are invited from people who wish to be part of a dynamic, innovative business and who have relevant irrigation product, hydraulic and electrical installation experience.

The successful incumbent will be flexible, willing to travel and be prepared for overnight stays away from home. You will have excellent communication skills, be a team player and have the drive and commitment to succeed in this position.

Salary will be commensurate with knowledge and experience.

Please send your CV with covering letter & salary expectations to;
Jayne Ambler, HR Manager, Reesink Turfcare UK Limited, 1-3 Station Road, St Neots, Cambridgeshire, PE19 1QH or Email Jayne.ambler@reesinkturfcare.co.uk

We are an Equal Opportunities Employer.

Closing Date for applications: Friday 11th May 2018.
