CLAAS UK wins the Institution of Agricultural Engineer's (IAgrE) 2021 Team Achievement Award

Trevor Tyrrell, Senior Vice President (Western Europe & Oceania) and CEO CLAAS UK, has been presented with the prestigious IAgrE 2021 Team Achievement Award at a ceremony held on-line last night.

This award is presented in recognition of successful teamwork and demonstrates what can be achieved with collaboration.

Presenting the award IAgrE President Paul Hemingway said, "The award was made to CLAAS for their contribution to the industry both in terms of products offered and engagement in agricultural engineering."

Charlie Nicklin, CEO of IAgrE commented: "CLAAS UK has fully engaged with agricultural engineering education in the UK, both with colleges and other organisations for teaching and demonstration purposes. They have supported graduate training for students at Harper Adams University with student placements in the UK and at the CLAAS headquarters in Germany.

On receiving the award Trevor Tyrrell said, "When Helmut Claas was asked about CLAAS' secret of success, his answer was clear and unpretentious: "There is no secret, just good ideas and motivated people".

"Those good ideas and motivated people have created a team in CLAAS UK who are striving to bring talented young people into our industry, and train them to the highest standards across a wide spectrum of disciplines. I am very proud to accept the IAgrE Team Award on behalf of the CLAAS UK team, who fully deserve it in recognition of the benefits that their work has brought to the agricultural engineering industry as a whole in the UK and Ireland."

For Information

IAgrE:

IAgrE is the professional body for scientists, technologists, engineers, academics, managers and students working in the landbased sector and has an international membership base.

As a licensed body of the Engineering Council (EngC) and a founding Constituent Body of The Society for the Environment (SocEnv), IAgrE registers suitably experienced professionals as Chartered Engineers, Chartered Environmentalists, Incorporated Engineers and Engineering Technicians.

IAgrE is a Licensed Body of the Engineering Council and a founding constituent body of the iagre.org

Agriculture – Forestry – Horticulture – Environmental - Amenity

Society for the Environment Company No: 648041 Charity No: 257303.

About the Land-based Education and Training Committee

The Land-based Training and Education Committee (LE-TEC Ltd), a Private Company Limited by Guarantee, is sponsored by three main industry bodies: The Agricultural Engineers Association (AEA), British Agriculture and Garden Machinery Association (BAGMA) and the Institution of Agricultural Engineers (IAgrE). Its aims are to promote training and education for people working with farm and horticultural machinery and associated areas.

About CLAAS

CLAAS (www.claas-group.com) is a family business founded in 1913 and is one of the world's leading manufacturers of agricultural machinery. The company, with Head Office in Harsewinkel, Westphalia, is the European market leader for combine harvesters. CLAAS is the global market leader for another large product group: self-propelled forage harvesters. CLAAS also holds the top spots in global agricultural technology with its tractors as well as its agricultural balers and grassland harvesting machines. Cutting-edge agricultural information technology also forms part of its product range. CLAAS employs more than 11,400 staff worldwide and in 2020 generated a turnover of 4.04 billion euros.
