# **The AgriEPI Centre of Agricultural Innovation**

**Dr Ron Corstanje,  
Senior Lecturer in Environmental Informatics,  
Cranfield University**

***Monday 06 March 19.30***

***Maulden Church Hall, Maulden, Beds, MK45 2AU***

The Agricultural Engineering Precision Innovation Centre (Agri-EPI Centre) aims to develop and exploit new engineering and sensing technologies to supply real-time monitoring of agrifood systems to inform farm management decisions. AgriEPI will provide innovators with access to state of the art agri-technologies to develop exciting new precision agriculture technologies. The aerospace, satellite, automotive and advanced sensor
