Home Grown: Fuelling tractors with Biogas

Mark Crosby,

*UK/ROI Product Specialist for Tractors and Telehandlers up to 175hp-
Founder and CEO*

New Holland Agriculture

If diesel is the energy of today then Methane offers a credible alternative for tomorrow. The rapid rise in biogas production has fuelled tractor development down a different road, but haven't we been here before and what does tomorrow look like?

Tuesday 13 December 2016, 7.30pm

Maulden Church Hall, Church Road,

Maulden, Beds., MK45 2AU
