

Agricultural Engineers Required – Opportunities Across the UK

The Job:

We are currently working with a wide range of agricultural businesses, machinery dealerships and service providers across the UK who are looking to recruit experienced Agricultural Engineers. These roles involve the maintenance, servicing and repair of a variety of agricultural machinery, ensuring equipment operates efficiently to support modern farming operations.

Responsibilities may include:

- Servicing, diagnosing and repairing agricultural machinery including tractors, harvesters and other farm equipment
- Fault finding using both mechanical and electronic diagnostic tools
- Carrying out routine maintenance and preventative servicing
- Preparing new and used machinery for sale or delivery
- Working both in the workshop and out on-site attending customer breakdowns
- Maintaining accurate service records and reports
- Providing high levels of customer service when dealing directly with farmers and operators

Positions are available with established employers throughout the UK, offering both workshop-based and mobile service roles.

The Candidate:

Previous experience as an Agricultural Engineer, Service Technician, or Agricultural Mechanic

- Good knowledge of agricultural machinery and equipment
- Strong diagnostic and fault-finding skills
- A qualification in agricultural engineering, land-based engineering, or a related mechanical discipline (desirable)
- A full UK driving licence
- The ability to work independently as well as part of a team
- A proactive and professional approach to work

Engineers from plant, construction, HGV or similar mechanical backgrounds may also be considered if they have an interest in moving into the agricultural sector.

The Package:

Packages will vary depending on the employer and level of experience but typically include:

- Competitive salary depending on experience
- Overtime opportunities
- Company vehicle (for mobile roles)
- Ongoing training and manufacturer development programmes
- Pension scheme
- Opportunities for career progression within established agricultural businesses

If you are an experienced Agricultural Engineer looking for your next opportunity or would like to explore roles available across the UK, we would be pleased to hear from you.
