

# IAgrE Landwards Conference 2022

## Conference Programme

|           |   |
|-----------|---|
| 0930      | <b>Arrival, Registration &amp; Networking</b>   |
| 1000      | <b>Introductory Remarks - Steve Constable, IAgrE President</b>  |
| 1010      | <p><b>Drilling without Tilling - Developments in Seed Drills</b></p> <p><b>George Sly – Horizon Agriculture Ltd</b></p> <p><i>George's presentation will provide and insight into his company's vision and the concepts being applied to their seed drill development. Their no-till approach is driving a number of innovative features and technology employed on their products. This importantly provides a host of efficiency benefits for the customer, whilst working towards a sustainable future.</i></p>  |
| 1100      | <b>Coffee Refreshment Break</b>   |
| 1120      | <p><b>Managing the Soil - the Science of Soil</b></p> <p><b>Paula Misiewicz – HAU</b></p> <p><i>Paula's presentation will provide an in depth look at the various research projects centred around soil mechanics and management, with a focus on ground compaction reduction methods, alternative tillage systems and precision agriculture methods. Paula will explain how science is providing the answers to sustainable land use and food production.</i></p>  |
| 1210      | <p><b>Sustainable Mechanisation - a New Mechanisation on the Land</b></p> <p><b>Ole Green - AGROINTELLI</b></p> <p><i>This presentation will explore a new kind of agricultural mechanisation on the land, offering some great sustainability credentials. Agrointelli's Robotti product is light in its footprint to ease soil compaction, driverless in operation to reduce costs and perfect for tasks such as mechanical weeding to reduce chemical use. Robots will certainly play a part in providing a sustainable future for agriculture.</i></p> |
| 1300-1400 | <b>Break for Lunch</b>  |
| 1400      | <p><b>Regenerative Farming</b></p> <p><b>Ben Taylor-Davies – RegenBen</b></p> <p><i>Ben's presentation offers a fascinating journey in his farming career, specifically how to farm sustainably in harmony with the environment. The audience will be taken through Ben's regenerative agriculture approach and how it is being practically applied in a commercial farming enterprise and what the future holds.</i></p>   |
| 1450      | Q&A and Speaker Panel Discussion hosted by Andy Newbold, FarmSmart & Charlie Nicklin, IAgrE CEO   |
| 1530      | <b>Close and thanks - Charles Nicklin CEO IAgrE</b>   |
