

Job Opportunity

Design Engineer

This is an opportunity to join the team developing new and existing products for the agricultural market as Teagle Machinery Ltd continues to invest in R&D activities.

This position is ideally suited to a new or recent engineering graduate to degree level. You will be involved with the initial design concept, prototype manufacture, product development, production information and problem solving with the customer.

Applicants need a good knowledge of agriculture, experience of using a 3D Design Package and have previous experience of design and manufacturing. They should also be computer literate able to demonstrate good communication skills.

For further information on the role please email jobs@teagle.co.uk

Applications

Please submit a full c.v. with covering letter outlining your suitability for this role by e-mail to jobs@teagle.co.uk or by post to Duncan Wilson, Teagle Machinery Ltd., Blackwater, Truro, Cornwall. TR4 8HQ.
